

Chapt. 3 L. 4 Discounts

Discount: amount subtracted from regular price. usually as a percent : determined at register.

(Ex) Shirt marked 40% off off the regular price of \$49.99 what is the new price?

~~100%~~
40% discount rate

$$\begin{array}{r} 49.99 \\ \times .40 \leftarrow \text{70\% sale} \\ \hline 19.996 \\ \underline{20.00 \text{ off}} \end{array}$$

$$\begin{array}{r} 49.99 \\ - 20.00 \\ \hline \end{array}$$

\$29.99 sales price
